Dept. of Energy, Energy Efficiency and Renewable Engery, 2009 OCLC Number: (OCoLC)610585547 Subject: Solar energy -- Government policy -- United States -- Guidebooks. Excerpt: . . . aSSeSS Current PoliCY environment 1. 2 1. 2 assess Current Policy environment Federal, state, and local policies, regulations, and incentives constitute the foundation upon which the solar energy industry can build. Policies that address the high up-front cost of installing solar energy systems, the intricacies of interconnecting photovoltaics, or PV, to the electricity grid, and the complexities of solar energy system permitting and inspection lay the groundwork for building a sustainable solar market. Federal and state policies address many of these issues. Local governments can support and expand a local solar market through complementary policies. Jurisdictional authority over many of the policies that affect solar energy installations depends on whether your area is served by an investor-owned, cooperative, or municipal utility. States typically have jurisdiction over investor-owned utilities and policies with statewide applications such as renewable portfolio standards, net metering, and interconnection. State policy makers and regulators, though, often allow local governments...
