Not illustrated. 1922 Excerpt: .of nutritional disorders in general--an attitude which undoubtedly will prove fruitful. It will be noted that the newer aspect of rickets has resulted from advances which emanated from the clinic as well as from the laboratory, and that as so often happens, decided progress has not been made at the point at which the greatest pressure was being exerted--in this instance, in the domain of metabolism. Five years ago, in conjunction with Dr. Unger, I began a clinical study of rickets. For the first two years our investigations embraced field work, such as studies of the diet of the negro mother in New York City 5 and the effect of cod liver oil on the rachitic negro infant.0 For the last three years we have been observing the occurrence of rickets among the infants in a large child-caring institution. The babies in this home have been fed the various standard milk formulas, composed of raw or pasteurized fluid milk, 4.
