

The Formation of Vegetable Mould Through the Action of Worms: With Observations on Their Habits

Filesize: 7.23 MB

Reviews

Definitely among the best ebook I have actually go through. I have read and i also am confident that i am going to likely to read once again once again later on. I am just very happy to explain how this is actually the finest publication i have read in my own daily life and could be he greatest pdf for at any time.

Cambridge University Press. Paperback. Book Condition: New. Paperback. 340 pages. Dimensions: 8.4in. x 5.5in. x 1.0in. This book, published in 1881, was the result of many years of experimentation and observation by Darwin in the open-air laboratory of his garden at Down House in Kent. As he wrote in his introduction, the subject of soil disturbance by worms may appear an insignificant one, but we shall see that it possesses some interest. He goes on to demonstrate the immensity - in size and over time - of the accumulated tiny movements of soil by earthworms, and their vital role in aerating the soil and breaking down vegetable material to keep the topsoil, the growing medium for all plant life and thus vital to human existence, fertile and healthy. At a time when there is huge interest in growing food organically and without using artificial fertilisers, Darwins insights are as important, and his descriptions of his experiments as fascinating, as they were in the late nineteenth century. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
