TARIFF POLICIES THROUGHOUT THE WORLD (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Tariff Policies Throughout the World The review of world tariff developments which is contained in the following pages deserves the attention of every thoughtful Canadian. The story is not dependent upon interpretation or judgment: it is a record of fact, told by the tariff schedules of more than 50 countries. In many instances the Investigation Department of the Canadian Reconstruction Association has analyzed the actual tariff laws. In all other cases, the statements for the most part have been based upon official reports in the British Board of Trade Journal, the Weekly Bulletin of the Canadian Department of Trade and Commerce, and United States Commerce Reports, published by the Government Bureau of Foreign and Domestic Commerce, Washington. The story told by these tariff developments is absolutely one-sided-a world-wide resort to tariff protection, recognition of the value of industrial development and of the home market, and a general strengthening of protective systems. Two immensely significant statements by the governments of other countries may be taken as a warning to Canada. The Spanish Government has summarized cogently the world tariff situation, in these words: Many countries have taken and are taking measures to prevent the invasion of their markets by foreign goods; tariff barriers are being raised and other restrictive measures adopted on all sides; the situation is developing towards a worldwide tariff war. The new customs tariff .is an instrument prepared for use in a tariff war, if necessary. Not less worthy of heeding is this warning from the Government of Australia: . customs duties which are not high enough to be effective are worse than useless.
